

LUNAREX WHITEPAPER

Intro

Lunarex (LRX) is a **Stellar-based reward token** created to give a voice to real people in the crypto space — not hype machines. In an ecosystem often dominated by empty promises, shilled coins, and unchecked scams, **Lunarex cuts through the noise** to highlight what matters: *truth, transparency, and community*.

The Lunarex platform — powered by LRX — is a **community-driven blog and voice platform** where contributors earn rewards simply by sharing what they know, what they've discovered, and what they believe. Whether you're explaining new Stellar projects, or sharing honest crypto takes — **your voice earns**.

Mission

To build a community where **information equals value**, and where contributors are rewarded for **integrity, insight, and courage** in the decentralized space — with a particular focus on the **Stellar ecosystem**.

Tokenomics

Token Name: Lunarex

Symbol: LRX

Network: Stellar

Total Supply: 30B LRX

Decimals: 7

Minting: Fixed Supply (No further issuance)

Distribution

Category	Allocation
Community Rewards	60%

Liquidity Pool	20%
Marketing & Partnership	20%

Rewards: 200% APY

LRX holders **earn 200% APY**, paid out **daily**, by simply holding LRX in their Stellar wallets. Rewards are distributed via an automated system that takes wallet snapshots and allocates tokens from the community pool transparently.

The Platform

Our blog will serve as a **voice-driven blog platform** dedicated to:

- Stellar ecosystem education
- Project reviews and announcements
- Project breakdowns
- Honest community takes
- Rewarding quality content with LRX

Contributors will **earn tokens for each post**, based on upvotes, relevance, and community engagement.

Roadmap

Phase	Date	Milestone
Phase 1	July 2025	LRX token creation on Stellar & stellar.toml published

Phase 2	jan 2026	Governance Voting system deployed — holders decide on burns, emissions, and platform features. <ul style="list-style-type: none"> ♦ Second token burn based on community consensus. ♦ Add developer grant fund for Stellar-based tools.
Phase 3	Feb 2026	Beta Platform Launch: Early contributors access blogging tools, wallet connect, and community voting.
Phase 4	April 2026	Burn of unclaimed rewards, unused marketing tokens, or inactive wallet balances (after full transparency review)

Infrastructure

- **Built on Stellar:** Fast, low-fee, and decentralized
- **Wallet Support:** Stellar wallets like Lobstr, Freightier, Scopuly
- **Token Verified:** `stellar.toml` hosted on <https://lunarex.net/.well-known/stellar.toml>
- **Rewards Engine:** Custom snapshot + distribution system (off-chain logic, on-chain payouts)

Disclaimer

Lunarex (LRX) is not a security or financial instrument. It is a reward token used for community engagement, education, and incentivization within the Lunarex platform. Holding or receiving LRX does not grant any ownership, equity, or promise of financial return.

All purchases, trades, or interactions with LRX are at your own risk. This whitepaper is not investment advice.

The Lunarex team reserves the right to update the roadmap, reward mechanisms, and platform design at any time to reflect changes in technology, legal conditions, or community needs.
